

SEMINAR

# Routine Outcome Monitoring Through the Practitioner's Lens

## FEATURING

Dr. Theo Elfers, R.Psych

## WHEN

September 29, 2022

12:00 - 1:00 p.m.

## WHERE

Over Zoom

## LEARNING GOALS

1. Learn what differentiates ROM from standard outcome measures.
2. Gain an overview of the most popular existing ROM measures.
3. Learn about the current evidence behind ROM use and its limitations.
4. Learn the current CPA recommendations for ROM use.
5. Additional resources for your practice.

Clinical psychology students are invited to join the UBC Psychology Clinic for this special presentation. This workshop is free but advance registration is required.

**RSVP by September 12**

To register, contact Cristina Ardelean by email at [clinic@psych.ubc.ca](mailto:clinic@psych.ubc.ca) or phone 604-822-3005.
